

Resident Birds of CATIE

Blue-crowned Motmot
Momotus momota

Blue-black Grassquit ♂
Volatinia jacarina

Scarlet-rumped Tanager ♀
Ramphocelus passerinii

Scarlet-rumped Tanager ♂
Ramphocelus passerinii

Variable Seedeater ♂
Sporophila aurita

Clay-colored Robin
Turdus grayi

Common Tody-Flycatcher
Todirostrum cinereum

Yellow-faced Grassquit ♂
Tiaris olivacea

White-necked Jacobin ♂
Florisuga mellivora

Yellow-olive Flycatcher
Tolmomyias sulphurescens

Ochre-bellied Flycatcher
Mionectes oleagineus

Gray-crowned Yellowthroat ♂
Geothlypis poliocephala

Dusky-capped Flycatcher
Myiarchus tuberculifer

Common Yellowthroat ♂
Geothlypis trichas

Golden-hooded Tanager
Tangara larvata

Blue-gray Tanager
Thraupis episcopus

Barred Antshrike ♀
Thamnophilus doliatus

Orange-billed Nightingale-Thrush
Catharus aurantiirostris

Tropical Kingbird
Tyrannus melancholicus

Great Kiskadee
Pitangus sulphuratus

Migratory Birds of CATIE

Ovenbird
Seiurus aurocapillus

White-eyed Vireo
Vireo griseus

Yellow-breasted Chat
Icteria virens

Northern Waterthrush
Seiurus noveboracensis

Alder Flycatcher
Empidonax alnorum

Chesnut-sided Warbler ♂
Dendroica pensylvanica

Chesnut-sided Warbler ♀
Dendroica pensylvanica

Hooded Warbler ♂
Wilsonia citrina

Mourning Warbler ♂
Oporornis philadelphia

Mourning Warbler ♀
Oporornis philadelphia

Warbling Vireo
Vireo gilvus

Wood Thrush
Hylocichla mustelina

American Redstart ♂
Setophaga ruticilla

American Redstart ♂ juvenil
Setophaga ruticilla

Black-and-white Warbler ♂
Mniotilta varia

Red-eyed Vireo
Vireo olivaceus

CATIE's Bird Monitoring Program (BMP) is dedicated to monitoring the impact of agriculture on resident and migratory birds. We monitor birds in landuses of the CATIE campus including pasture, cacao, coffee agroforestry, sugar cane and primary forest. This guide is one of the first products of this monitoring effort.

The BMP thanks its volunteer bird banders without whom this project would not be possible.
